MEMORANDUM FOR: DD/PTOS

SUBJECT : Review of [REDACTED] and [REDACTED]

25X1A

25X1A

1. The captioned regulations have been reviewed by this Staff as well as by security officers assigned to the various contracting teams in other components.

2. With the caveat clearly stated that the procedures set forth in these regulations are applicable only to Agency-funded procurement activities, [REDACTED]

[REDACTED] there is a general consensus that the regulations are a fairly accurate representation of what should and frequently does occur in the procurement cycle. [REDACTED], calling for pre-contact consultation with this Staff is not always followed but this is mainly a reflection of inexperience on the part of certain components (NPIC being a principal offender) rather than a fault in the regulation.

3. That portion of [REDACTED] which sets forth the responsibilities of the Director of Security, i.e. [REDACTED] is perfectly consistent with our actual practices with one exception - there is no focal point or referent to develop Agency security policy for industry, a need that has long been felt on this Staff which has been forced to make "ad hoc" policy decisions in those areas where no established security policy exists and no single point within OS was authorized to provide policy guidance.

4. It should be noted in passing that the final paragraph of [REDACTED] which states that OL will coordinate the activities of the Agency's industrial security officers when more than one directorate is dealing with the same contractor does work with Agency funded procurement but clearly is not meant to apply to [REDACTED] contracting as well.
